**DETAILED ACTION**

1. Upon review of Applicant's amendment filed on September 22, 2006, it is noted that a restriction/requirement is warranted. Any inconvenience to Applicant is regretted.

***Election/Restrictions***

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-2 and 5-9, drawn to a system, classified in class 715, subclass 507.
  - II. Claims 3 and 11-15, drawn to a method, classified in class 382, subclass 305.
3. The inventions are distinct, each from the other because of the following reasons:

Inventions II and I are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another and materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case, the process as claimed can be practiced by another and materially different apparatus such as a system for dating service, or filing a form by hand. In addition, the apparatus as claimed can be used to practice another and

materially different process such as a method for authenticating user personal information before accessing to a machine or a computer.

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purpose as indicated is proper.

5. Applicant is advised that the response to this requirement to be completed must include an election of the invention to be examined even though the requirement is traversed (37 CFR 1.143).

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Luu Matthew whose telephone number is 571-272-7663. The examiner can normally be reached on Maxi-Flex.
